## Retailers' obligations under the WEEE regulations.

The aim of the waste electrical and electronic equipment regulations 2013 is to ensure that waste electrical and electronic equipment (WEEE) is collected from the end user and recycled. It places obligations on manufacturers, distributors (including retailers) and the compliance schemes that collect the WEEE. This means you are solely responsible for registration in your country and to report the quantities you sell in your country.

## Packing material/crate

As packaging materials, especially all plastic products, have become considerably more expensive in recent months, we now charge €40 for each cardboard with a foam insert and €350 for each wooden crate.

aluminum

All prices are payable strictly net. Prices are subject to change.  
Specifications subject to change without notice.  
Terms of payment: Advance payment. Prices EXW Incoterms 2020.
